Well then, here's information about yesterday's fallen eggs
Good morning to all in the Gated City*, this is live caster Iriya reporting from the safety of the internet
It's time for news about the "Demi".**

T/N: *KANJI SAYS UPPER CITY. **KANJI SAYS MONSTER

Yesterday from the direction of Kanto's southern Pacific Ocean, multiple "eggs" fell right in the center of town.
In response to this, the Defense Force and the U7 have been sortied and are actively working to wipe out the Demi.
Incidentally, the captured Demi slipped into town and there's fear that there won't be enough caution when going out.
meow www
T/N: *KANJI SAYS LOWER CITY
Already in "Open City*", a part of the Daiba Commune was obliterated by an attack from the hatched Demi.
It's expected that this will upgrade the level of the disaster from "Grade 1" to "Grade 3".
Last night, this video feed was captured by the Daiba Commune.
Well then, every-one—

Today, as usual, please take care not to look up at the sky...

SHIT! CAN'T YOU GO FASTER!?
CAN'T WE OVERTAKE THAT WEIRD THING!?

I DON'T KNOW SOLARIS' TRUE IDENTITY.

I'M NOT SURE ABOUT THE MECHANISM BEHIND IT BUT...
